

d

literal-write instruction	tar benign	tar lethal
present	Z80 open, then closed · 40 of 40 worlds modified BFF, harmless brackets open for ever · 12 of 12 worlds no closed design exists	modified BFF, lethal brackets open, then extinct · 12 of 12 worlds
absent	not run	BFF as published born closed · 28 of 28 life-producing worlds

with benign tar and literal writing, closure depends on a jump the organism can copy along with itself
